Dear Sir:

We, Jason E. Dundas of 365 Larri Lee Street, Post Falls, Idaho, 83854; and Ted J. Freeman of 1976 Water Oak Way, Avon, Indiana, 46123, are citizens of the United States of America, and we do hereby declare:

That we made and conceived the invention described and claimed in Patent Application Serial No. 10/799,223, filed in the United States of America on March 12, 2004, entitled SEPARABLE BLADE TURBINE. Application No. 10/799,223 claims the benefit of United States Provisional Application Serial No. 60/465,892 filed March 22, 2003.

That we made and conceived the invention while either directly employed by Allison Advanced Development Company and/or its predecessors and/or successors (hereinafter "ALLISON"). That the invention is related to the work we are employed to

perform by ALLISON and was made within the scope of our employment duties. That the invention was made during working hours, and with use of facilities, equipment, materials, funds, information and services of ALLISON. That to the best of our knowledge and belief, the invention set forth in the above-referenced U. S. Patent Application was not made or conceived in the course of, or in connection with, or under terms of any contract, subcontract or arrangement entered into with or for the benefit of the National Aeronautics and Space Administration;

The undersigned inventors declare further that all statements made herein of their own knowledge are true and that all statements made on information and belief are believed to be true and further that these statements are made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.
